

# Longwave, State Of Mind

you know that my state of mind  
is better than it seems  
when you look into my eyes  
see what there is to see  
don't forget that i  
will let you down  
don't let it take your time  
i'll be where you're going  
racing out of control  
i know what you think at night  
i know all the secrets  
there's nothing you can do besides  
wonder at the reasons  
so don't forget that i  
will let you down  
don't let it take your time  
i'll be where you're going  
racing out of control  
so don't forget that i  
will let you down  
don't let it take your time  
i'll be where you're going  
racing out of control
