

Longwave, We're Not Gonna Crack

We're not gonna crack,
Not a bit,
We're not gonna stop,
At nothing.

Anything you do,
it's nothing changed
Anywhere you go,
We're coming in.

And when it gets in you,
It sets in you,
And then you know it's all the same,
A complicated mess!

We're not gonna give,
Give an inch,
We're not gonna let up,
Just a pinch.

Anything you do,
it's nothing changed
Anywhere you go,
We're coming in.

And when it gets in you,
It sets in you,
And then you know it's all the same,
A complicated mess,
A mess,
A mess!

We've got machines,
To beat you up
Jaws that eat,
Eat you up
You just keep,
Backing up.

Pulling away and running out the back
But you can't get away
No, you can't get away
No, you can't get away

We're not gonna crack.
