

Look See Proof, Local Hero

She said that she would wait for you
Your easy
Oh so easy
In circles, walking as as for you (?) backwradz farther from the truth
So I can't explane why
It's different from last time
Emotions destorted
Your feelings are thwarted
Did he make you feel good
Did he make you feel good (feel better)
Did he make you feel good
Did he make you feel good (feel better)
So will you wait for,
Wait for tonight
[I will go]
So will you wait for,
Wait for tonight...
So will you wait for,
Wait for tonight
I know what she won't wait for you
She's easy
Oh so easy
Most spot lights light the way for you
Getting closer looking for the truth
You won't
Go back there
You've taken more than you can bare
So you won't go back there
You've taken more than you can bare
Did he make you feel good
Did he make you feel good (feel better)
Did he make you feel good
Did he make you feel good (feel better)
So will you wait for,
Wait for tonight
[I will go]
So will you wait for,
Wait for tonight...
So will you wait for,
Wait for tonight
