

Loquat, Sit Sideways

break off chips on all the shoulders,
to make you so much bolder
and help you rock climb over
take a break and hide discreetly,
look right out into the sea
and then breathe out completely
they can't find you when you're roaming
or even when were laughing,
relief the longest lasting. (?)

you can
sit sideways in the boat
drink more to help you both
he's ready to take it on
after some numbing time
sit sideways in the boat
drink more to help you co (?)
he's ready to take it on
jump in the water's fine
cut up pellets on the table
see which bottles are favored
leaving four more to pay for
why the sad look on your face
that just can't be erased?
And now you're left all glazed.
if there is no known device
to suck the pain out twice,
i guess this will suffice
if you

sit sideways in the boat
drink more to help you both
he's ready to take it on,
after some numbing time.
sit sideways in the boat
drink more to help you cold
he's ready to take it on
jump in the water's fine
where were you?
we've got 15 hours.
here's your share; it's my turn.
how long will it burn?
sit sideways in the boat
drink more to help you both
he's ready to take it on,
after some numbing time.
sit sideways in the boat
drink more to help you co (?)
he's ready to take it on,
just in the water's fine. (x2)
