

# Lora, Round and Round

I, I,  
I never ever felt this way,  
After you chose to run away,  
And still I find myself in chains,  
Trying to breath without your face.

I, I,  
In the moment I met you I fell to fire,  
You give me hope to leave me higher,  
And then I start to believe in me and you.  
I'm losing control when I'm around you,  
I feel so happy that I found you,  
The world is spinning faster, round and round.

I never ever felt this way,  
After you chose to run away,  
And still I find myself in chains,  
Trying to breath without your face.

In the moment I met you I fell to fire,  
You give me hope to leave me higher,  
And then I start to believe in me and you.  
I'm losing control when I'm around you,  
I feel so happy that I found you,

Oh baby, baby,  
Round and round and round.  
Oh baby, baby,  
Round and round and round.  
Oh baby, baby,  
Round and round and round.  
Oh baby, baby,  
Round and round and round and round
