

Loraine McFarland, Fake Friend

Verse 1

- Who are you
- What have you become to be
- I don't know you
- Your gone
- Changed everything
- You were my best friend
- Bff till the end
- Now I know that
- Forever has an end
- What did I do to you
- What could have I said
- With all these questions
- I'm going out of my head

Chorus

- Best friend
- That meant nothing to you
- And I guess
- The same thing also goes for me to
- I tried to hold on
- But it hurt so bad
- But I can't stand to have
- Such a fake friend

Verse 2

- So don't come follow me
- I'm not the girl you knew before
- After being hurt
- I've learned to shut my door
- And don't bother my friend
- She's done nothing wrong to you
- We deserve to be mad
- After all of your abuse
- So go and shut your mouth
- Don't talk about us
- But I guess you can't
- And i'm not surprised

Coda

- Now I have some questions for you to
- Do you miss me at all
- Even just a lil
- Did you sense that somethings wrong
- If i'd told you
- Would even care at all
