Loraine McFarland, I Found You

Verse 1
Never thought i'd find a truth
Love was dead to me till I met you, I spent
Alot of time building up these walls
Then you come in to catch my fall
Spent alot of time regreting
When I should have been thanking

Chorus
That I found you
That I found someone who will
Give me all of there love, someone that I fully trust
It gets better and better and better
(NEW CHORUS)
That I found you
That I found someone who does
Everything to make sure things get better and better
That I found you
You know i'd never ask for more
Give me all of there love, someone that I fully trust
It gets better and better and better

Verse 2
One time you let me down
And when you did you turned it all around
Your like
I'm sorry, I really am, I won't hurt you nomore, if I did
You always say those things to get me
I'm so grateful, and so thankful

Coda
What did I 's
What did I do 's
That I found you
That I found someone who does
Everything to make sure things get better and better
That I found you
You know i'd never ask for more
Give me all of there love, someone that I fully trust
It gets better and better and better
What did I's
What did I do's
