

Loraine McFarland, No One Likes You

Verse 1

- You screwed me over for the last time
- Saying that I backstabbed you
- Why must you be so
- So into you
- You get on my nerves
- You use to be a good friend
- Thought we'd be till the end
- Well I guess I thought wrong

Chorus

- How dare you say I would hurt you that way
- Do you know Do you know that
- No one likes you
- Cause your fake with nothing to gain
- Do you know Do you know that
- No one likes you
- No, don't you know
- I don't like you either

Verse 2

- Going around in circles
- Lies after lies im done
- Forgiving things that I didn't do
- What kind of fool
- Oh please enough is enough
- Being friends with you was so rough
- Please just get outta here

Coda

- No matter what you do
- No one will ever like you
- Don't try your never gonna be me
- You use to be a good friend
- Thought we'd be till the end
- Well I guess I thought wrong
