

Loraine McFarland, So Called Best Friend

Verse 1

just had no clue
 You would decieve me
 You did decieve me
 I was just so blinded
 I didn't believe
 Now I can see

How you really are
 How you really are

Chorus

Tell me truth
 I need know the truth
 What really happened
 My so called best friend
 Your time is up
 And I have enough
 Trying to defend
 My so called best friend

 I know who you are

Verse 2

Don't you try and call me
 Cause im not there
 But I am there
 Tell me why you kissed him
 You knew how I felt
 You knew how I felt

 But now I can see
 But now I can see

Coda

I liked him
 He liked me
 Sorry for all your jealousy
 But now I can see
 But now I can see
 How you really are
 How you really are
