

Loraine McFarland, Why Can't We

Verse 1

- Nothing can change the moments that we had
- Being with someone who really understands
- Someone to love
- Someone to kiss goodnight
- That's something we should have had
-

Chorus

- Why can't I
- Be with you now
- Were through
- I wish we could still be
- Why can't we
-

Verse 2

- You made me feel so happy
- You took over my heart
- Then something changed what's written in the stars
- Were we true to each other but couldn't go on
- What could've been I won't find out
-

Coda

- I know happy endings don't always come true
- What I wanted was just you
- REPEAT CHORUS
