

# Loraine McFarland, You

## Verse 1

- There are times
- When I am happy
- Then there are times
- When I could cry
- Because of you
- I am this way today
- Cause of you
- I could die
- I always felt this hole on the inside
- Once again it's cause you put it there
- Then there were days
- When you could fill that void
- But now it grows larger

## Chorus

- It's because of you
- I am even scared to be around my own shadow
- It is just not fair
- Cause you were never like this
- And I all want is the old you back

## Verse 2

- I understand
- Why your not the same
- Keep holding my breath
- To think that something might change
- In reality
- I know that's a longshot
- Keep thinking
- Won't forget

## Coda

- I'd give anything to change that
- But I know that you will never change
- Now you wonder why I don't give a damn
- Why can't you understand
- What I comprehend
- Because of you
