

# LORDE, Mood Ring

I'm tryna blow bubbles but inside  
Can't seem to fix my mood  
Today it's as dark as my roots  
If I ever let them grow out  
Now all of my oceans have riptides  
Can't seem to find what's wrong  
The whole world is letting me down  
Don't you think the early 2000s seem so far away?

Ladies, Begin your sun salutations  
Transcendenta; in your meditations  
Love and light  
You can burn sage  
And i'll cleanse the crystals  
We can get high  
But only if the wind blows  
Just right

I can't feel a thingg  
I keep looking at my mood ring  
Tell me how i am feeling  
Floating away /2x

I am truyna get well from the inside  
Plants adn celebrity news  
Ll the vitamines i consume  
Let's fly somewhere estern  
They'll have what i need

Ladies, Begin your sun salutations  
Transcendenta; in your meditations  
Love and light  
You can burn sage  
And i'll cleanse the crystals  
We can get high  
But only if the wind blows  
Just right

I can't feel a thingg  
I keep looking at my mood ring  
Tell me how i am feeling  
Floating away /2x  
We'll keep dancing till te mood rings  
Telll u show we're feeling  
Floating away /2x

Take me to some kinda place  
Anywhere  
Watch the sunset  
Look back on my life  
I just wanna know  
Will it be alright?
