

LORDE, Perfect Places

Every night
I live and die
Feel the party to my bones
Watch the wasters blow the speakers
Spill my guts beneath the outdoor light
It's just another graceless night
I hate the headlines and the weather
I'm 19 and I'm on fire
But when we're dancing I'm alright
It's just another graceless night

Are you lost enough?
Have another drink
Get lost in us
This is how we get notorious
Cause u don't know
If they keep telling you where to go
I put my bass out to the radio

All of the things we're taking
Cause we're young and we're ashamed
Sands us to perfect Places
All of our heroes fading
Now I can't stand to be alone
Let's go to perfect places

Every night, I live and die
Meet somebody
Take them home
Let's kiss and then take off our cloths
It's just another graceless night

Cause we're young and we're ashamed
Sands us to perfect Places
All of our heroes fading
Now I can't stand to be alone
Let's go to perfect places

All the nights spent off our faces
Trying to find these perfect places
What the fuck are perfect places anyway?
