

Lords Of Acid, Marijauna In Your Brain

Marijuana in your brain
Takes more time to ejaculate
Roll up a spliff and drowse away the day
With marijuana in your brain

I'm knocking on your door
But you can't move no more
You're stoned (so stoned)
You old hippie in the final sky
Fluffy clouds are passing by
So stoned (so stoned)
Strange weeds a flutter in your mind
Worn out jeans are showing your behind
Spake cake with a bit of whipped cream
Herbal tea and patchouli

Marijuana in your brain.....

Franky boy lie in the grass with me
Moon over Woodstock underneath the tree
Just blow (just blow)
Shock headed yogi meditate all day
Flower child chase the war away
Just blow (just blow)
Revolution make your mind flow free
Peace and freedom and a love community
Psychedelic posters on your wall
Jimmy, Janice, yes you knew them all

Marijuana in your brain.....

One lazy summer at a festival
In open air, not in a concert hall
No way (no way)
A spacy mushroom landed in your mouth
You couldn't tell the north from the south
No way (no way)
While all the hippies make love under the stars
I'd rather do it on the back seat of a car
Hari Krishnas mean the same old tune
The golden sixties was a time of doom

Marijuana in your brain.....
