

Lords Of Acid, Take Control (Radio Version)

Oohoo ohoo

I'm moving, I'm follow the beam
I'm hypnotised by your scream
Created by love
This feeling makes me groove
This energy below
The force is carry me over the top
Not knowing how to stop
I'm hungry, I'm hungry for your touch

Feel the rythm, feel the soul, Lords of Acid take control (x4)

Ooho o Ooho o

There's madness, to see that there's no gain
Takes control of my brain
It's pure, it's sick,
It's a reflection of the soul
Deepdown in my heart
Filling a hole
Created by hate
The fact, the fact that I'm alone
A victim turned to stone

Feel the rhythm, feel the soul, Lords of Acid take control (x4)
