

# Lords of Black, I Want The Darkness To Stop

Now you're gone  
Did you know who I ever was?  
Maybe a fool  
Maybe a spell you don't want to come undone

Did you know... it was going to turn this wrong  
Do you still want to know  
If I still sing the songs we used to love

Now I drift into the dark  
I'm so afraid to relive it... When I turn out the light

Hand on heart, I beg you to take me home  
I wish I dream, I wish I may  
I wish I might be with you tonight

Chorus  
Let me take just one  
One last look at the promised land  
If that's all that remains... Will I see you again?  
Tell me why you dare  
To pretend there was never love  
All I need, all I ask, all I want... is the darkness to stop
