

Lorene Drive, A Kiss Won't Make This Better

You put so much effort into it
Does it make you feel good
A kiss won't make this better
This is my last goodbye
A kiss won't make this better
A kiss won't make this right
I know you got my letter
Just unlock the door
Are you sitting down, I think you might want to
It seems you have everything under control
This is my life, one thing to hold on to
