## Loretta Lynn, The Darkest Day

Darlin' when you told me you were leavin' I thought that you were only foolin' me But here I am to face old blue tomorrow With a broken heart that's filled with misery.

It seems that my world is through an end Just dreamin' of things that might have been Oh why, I don't get all sunshine bright Today's the darkest day of my life.

(Oh, that's Grady Martin) --- Instrumental ---

Oh, how I wish that old scene is through It's always darkest just before dawn Then I'll know soon I'm gonna see the sunshine I just can't take this darkness, on and on.

It seems that my world is through an end Just dreamin' of things that might have been Oh why, I don't get all sunshine bright Today's the darkest day of my life...
