

Loretta Lynn, We've Already Tasted Love

(Bobby Harden)

I didn't mean for this to get so out of hand when I first met you
But the more we see each other or the more we want to
We can't stop this ain't something we can't turn off like a light
It's too late we've already tasted love

You made me feel the way he hasn't made me feel in so long
And it's beyond my powerful courage just to walk out and go home
What we found in each other's arms it's always on my mind
It's too late we've already tasted love
[piano]
We can't stop this ain't something...
