

Lori Carson, Stars

It's a little while later
It's never going to be the same
They keep telling you
Time will ease the pain

It's a little while later
And you've only got yourself to blame
But what can you do?
You learn to play the game

I still want to try
Though you say you will never
I shouldn't wait around forever
I still want to try
Never is a very long time

It's a little while later
Too well you still recall
Though you're the only one
They talk about the fall

As if September
Could erase the taste of spring
Though summer comes undone
It doesn't change a thing

I still want to try...

So you hardly notice
The future's made of
Days like this

It's a little while later
It's never going to be the same
They keep telling you
Time will ease the pain

I still want to try...

One day you will see
You will see
Stars
