

Lori McKenna, It's Easy When You Smile

It's easy when you smile
We can talk a while
Just lie here in my arms
Safe and warm
Outside the night is so unclear
Stay here
And everything will disappear

It's easy when you laugh
Troubles cut in half
Where I will go without you?
I don't know
Outside the night is breezing by
Don't cry
And everything will be alright

Hold me, hold me, stay
Tomorrow's far a way
And so are we
And that's why it's easy
It's easy when you say
We can find a way
Don't worry about it now
We'll get through it some how
Outside the night is almost gone
Stay strong
And maybe we can still go on

Hold me, hold me, stay
Tomorrow's far away
And so are we

It's easy when you smile
We can talk a while
Just lie here in my arms
Safe and warm
Oh... oh easy
It's so easy when you smile
