Lori McKenna, It's Easy When You Smile

It's easy when you smile We can talk a while Just lie here in my arms Safe and warm Outside the night is so unclear Stay here And everything will disappear

It's easy when you laugh Troubles cut in half Where I will go without you? I don't know Outside the night is breezing by Don't cry And everything will be alright

Hold me, hold me, stay
Tomorrow's far a way
And so are we
And that's why it's easy
It's easy when you say
We can find a way
Don't worry about it now
We'll get through it some how
Outside the night is almost gone
Stay strong
And maybe we can still go on

Hold me, hold me, stay Tomorrow's far away And so are we

It's easy when you smile We can talk a while Just lie here in my arms Safe and warm Oh... oh easy It's so easy when you smile
