

# Lorien, The Silent Mermaid

I am a mermaid in love with a man  
So I was punished, my tongue was cut off  
I can sing no more but I talk with tears  
Pain fills my heart drown in fear.

I spend my time gazing at ships passing by  
Looking for my beloved among the crew  
I swim towards him 'till he looks at me  
Hoping he will guess my desire.

(Chorus)  
If I only could sing  
I would have his heart  
In my hand.

He would be caught  
In the spell  
Cast by my melody.

(Bridge)  
(but) I'm a silent Mermaid  
I'm mute forevermore  
Even if I weep  
I wont be heard.

I am eager to save from a wreck  
My dear sailor to be close to him  
In a tight embrace we will reach the shore  
I will not let him leave me alone.

It's hard to remember how long I have been  
Waiting for my lucky day to come  
Though I have no voice  
My lips hope to kiss  
And my heart is filled
