

Lorrie Morgan, One Of Those Nights Tonight

I've had one of those days today
I'm in one of those moods
And it's just no good
Nothin' I wanna talk about
I just need for you to take me out
And do the town, turn it upside down.

Chorus: I need one of those nights tonight
Wanna go left where the world goes right
I've lost my appetite for this side of midnight
Wanna burn out those neon lights
Past the point of Fahrenheit
I wanna feel my heart ignite when you hold me tight
I need one of those nights tonight
'Cause I've had one of those days today.

I've got one of those jobs
And I've had enough
You'd better walk me out this door
Before I run to Singapore
Just show me how you love me now

Repeat Chorus

I'm in one of those moods
I'm in one of those moods
I'm in one of those ways
I've had one of those days.

Repeat Chorus
