

Los Lobos, High Places

(David Hidalgo/Louie Perez)

The advantage of being in high places
Is that you never have to look up

The advantage of being in high places
Is that you never have to look up

And you feel like a big shot
It makes you feel like a big shot
It makes you feel like a big shot
Makes you feel like a real big shot

The advantage of being in high places
Is that people look so small

The advantage of being in high places
Is that people look so small

And you feel like a big shot
It makes you feel like a big shot
It makes you feel like a big shot
Makes you feel like a real big shot

The trouble with being in high places
Is when you fall it's a long way down

The trouble with being in high places
Is when you fall it's a long way down

The trouble with being in high places
The trouble with being in high places
The trouble with being in high places

The trouble with being in high places
Is when you're down nobody picks you up

The trouble with being in high places
Is when you're down nobody picks you up

Cuz you acted like a big shot
So what happened to the big shot
So what happened to the big shot
You thunk you were a real big shot

The trouble with being in high places
The trouble with being in high places
The trouble with being in high places
The trouble with being in high places
