

# Los Lobos, High Places

(David Hidalgo/Louie Perez)

The advantage of being in high places  
Is that you never have to look up

The advantage of being in high places  
Is that you never have to look up

And you feel like a big shot  
It makes you feel like a big shot  
It makes you feel like a big shot  
Makes you feel like a real big shot

The advantage of being in high places  
Is that people look so small

The advantage of being in high places  
Is that people look so small

And you feel like a big shot  
It makes you feel like a big shot  
It makes you feel like a big shot  
Makes you feel like a real big shot

The trouble with being in high places  
Is when you fall it's a long way down

The trouble with being in high places  
Is when you fall it's a long way down

The trouble with being in high places  
The trouble with being in high places  
The trouble with being in high places

The trouble with being in high places  
Is when you're down nobody picks you up

The trouble with being in high places  
Is when you're down nobody picks you up

Cuz you acted like a big shot  
So what happened to the big shot  
So what happened to the big shot  
You think you were a real big shot

The trouble with being in high places  
The trouble with being in high places  
The trouble with being in high places  
The trouble with being in high places
