Los Lobos, I Walk Alone

(Cesar Rosas)

I'll walk alone if I can't walk with you I'll walk alone if I can't walk with you I don't want nobody else, nobody else will do

Life is too precious to live alone Life is too precious to live alone A house without love is not a home

I close my eyes and hold you tight I close my eyes and hold you tight It's a dream I have about every night

I'll walk alone if I can't walk with you I'll walk alone if I can't walk with you I don't want nobody else, nobody else will do
