

Los Lobos, Somewhere In Time

(David Hidalgo/Louie Perez/Dave Alvin)

I hear a voice singing somewhere in time
A song I knew so long ago
It takes me back to places somewhere in time
To everyone I used to know

I see a face I remember somewhere in time
Someone I love who's gone away
Gone away somewhere in time
Gone away somewhere in time

Another night, on a highway somewhere in time
Darkness plays those tricks on me
Far down the road in the shadows somewhere in time
Am I the man I'm supposed to be?

I see a light, shining somewhere in time
A lonely light to lead me on
To lead me on somewhere in time
To lead me on somewhere in time

Wake from a dream, a dream from somewhere in time
I rub my eyes so I can see
You're standing there before me somewhere in time
Standing there waiting for me

And I'll take your hand someday somewhere in time
Forever I'll be here with you
I'll be with you somewhere in time
I'll be with you somewhere in time
I'm here with you somewhere in time
