## Los Lonely Boys, Diamonds

I'm lookin' at a rainbow Way yonder across them hills And my baby's love is with me And I know that it's for real

I ain't got no diamond Girl you know I ain't got no gold I ain't never been a rich man But girl I got you here to hold

We dance out in the moonlit sky But it pales beside her light She puts her arms around me Yeah I tell her it's alright

I ain't got no diamond And girl you know I got no gold I ain't never been a rich man But girl I got you here to hold

When you find something that matters In that moment you will see Far beyond our selfish wonders Love is simple, love is free

I ain't got no diamond Girl you know I ain't got no gold I ain't never been a rich man But girl I got you here to hold

I ain't got no diamond I ain't got no gold, I ain't got no gold But I have you...Love you darling
