

Los Lonely Boys, Nobody Else

I can't stand to be alone
Cause I go crazy when you're gone
You're the one that makes me whole
I pray you've known this all along
Everything is gonna be alright
I wanna be with you all of my life
I can't wait to be alone
With you baby in my arms
Girl I need you here to hold
You know your love it shines like gold
Baby, every minute of the night
That I'm not with you I don't feel right
Cause I only want to be with you
Baby and nobody else
Yes the only girl I see is you
Baby and nobody else
Solo yo no quiero estar
Sin tu carino y tu amor
No quiero vivir sin ti
En mis brazos te quiero asi
Tu eres la unica mujer
Te quiero en mi vida por tu querer
Yes I only want to be with you
Baby and nobody else
Yes the only girl I see is you
Baby and nobody else
