

# Loser, Away

Jenny says that she knows the way  
She gets high on her novocaine  
She medicates herself away  
Up or down, it's all the same  
He gets angry, he gets mad  
He gets by on what he has  
He drowns himself in everything  
'Cause what he wants is so far away  
Oh-oh-oooh  
'Cause I don't wanna feel this way  
Oh-oh-oooh  
So can you take it all away, take it all away  
Take it all  
Jenny said she can fly away  
She has gone to another place  
He wants to make his great escape  
Just to see the look, just to see the look  
On her face  
Oh-oh-oooh  
'Cause I don't wanna feel this way  
Oh-oh-oooh  
So can you take it all away, take it all away  
Take it all  
Say goodbye to me, say goodbye to me  
Aa-aah, aa-aah  
Say goodbye to me and all you thought would be  
It's fading out of reach like everything we've ever known  
Oh-oh-oooh  
'Cause I don't wanna feel this way  
Oh-oh-oooh  
So can you take it all away, take it all away  
Take it all
