

Lost Frequencies & Netsky, Here With You

When I saw you for the first time
Days were running by
We were spinning high
I was lost in every message
Collecting all your different pieces
Felt like a secret
When I say you for the second time
Pain slowly dries
Love lost its pride
Be careful as you leave

And there's enough of giving
And everybody hurts
/4x

When I'm here with you /2x

When I'm here with you
I feel so confused
When I'm here with you, I
Enter the falling
I'm crawling back up
When I'm here with you
