

# Lost Frequencies, Rise

Its been a hard year  
Feeling the weight now  
All of the hurt  
All of the dirt  
All of the shame now

Nothing but close doors  
Not gonna break down  
I rise

See doubt is a strong drug  
It gets in your bloodstream  
You loose your hope  
Ypu loose your soul  
You the whole thing  
I fought my whole lide  
To know it won't break me  
I rise

If i ha dan answer to all my fears  
I'd be doing well  
If i had a dolar for evety tear  
I'd be rich as hell  
Call me crazy  
The struggle mede me

Ain't no way  
No way i am stopping now  
Gonna make my way right throught the clouds  
I rise  
I rise  
Imma grift my teeth and bare the pain  
Gonna clib this mountain once again  
I rise  
I rise
