

Lostprophets, Tonight

Tonight.. I felt stronger
Inside of your wings
It takes alot to get home
but its ok when the light is always on

I just want you to understand, theres no need to keep waiting
another day and another hand, it could be so different
a letter to me, your wasting time
You know you could be, yeah you could shine
But tonight youll get it right, you will make a difference..

Tonight Tonight Tonight i feel stronger
Goodbye Goodbye Goodbye
And i could see through, even so far away
Its all you need to make it through another day

Surprise scream your heart out
In time you will have doubt
today it all seems too strong
if only you tried, you would move on

I just want you to understand, theres no need to keep waiting
another day and another hand, it could be so different
a letter to me, your wasting time
You know you could be, yeah you could shine
But tonight youll get it right, you will make a difference..

Tonight Tonight Tonight i feel stronger
Goodbye Goodbye Goodbye
And i could see through, even so far away
Its all you need to make it through another day

Tonight Tonight Tonight i feel stronger
Tonight Tonight Tonight i feel stronger
Tonight Tonight Tonight i feel stronger
Goodbye Goodbye Goodbye
And i could see through, even so far away
Its all you need to make it through another day

Yeah yeah
