

# Lostprophets, Track 2

(.... .., I will ....)

He used to be the hard rock (...) the whole block. (.... ..)

Found what he did or what he said or what was goin down.

To the round never hit a motherfuckin sound.

Untill he was ready to (beat) kids for.

Cuz he always made sense cuz it always came from his heart.

Like everything he did, he always followed it through.

And he always had time for his friends and his crew.

\*\*\*Chorus\*\*\*

(If I ever get back down south now), I probley would (....)

Try real hard to not loose (....)

Its all I ever (....)

(Represent) all my crew

(Represent) all my boyz

And all my people that stay true

(Represent) all my girls

(Represent) all my boyz

And all the people that stay true

(Never laugh when you can't cuz your time started runnin out)

You gotta do it now boy, nows the time to scream and shout.

Burn it in your head, bang it in your chest: "Do it for yourself"

Not for anybody else! To believe in what you're feelin, its always up to you.

Stay (slow) in your mind and in your heart, always true.

You gotta keep it real, you gotta keep it close.

Never loose sight of that thing that you want most!

\*\*\*Chorus\*\*\*
