

# Lou Reed, Vicious Circle

You're caught in a vicious circle  
Surrounded by your so called friends  
You're caught in a vicious circle  
And it looks like it will never end  
'Cause some people think that they like problems  
And some people think that they don't  
And for everybody who says yes  
There's somebody who's staring, saying don't

You're caught in a vicious circle  
Surrounded by your so called friends  
You're caught in a vicious circle  
And it looks like it will never end  
'Cause some people think that it's nerves  
And some people think that it's not  
And some people think that it's things that you do  
And others think that you were cold, when you were hot  
They think that that is what it was about

You're caught in a vicious circle ...

Surrounded by all of your friends
