Louis Armstrong, The Sunshine Of Love

Where there is sunshine, oh that's where you are Where there is laughter, then you can't be far You're in my dreams every night Oh how I long to hold you tight, I need you I'll follow you dear from here to a star Your lips are honey but sweeter by far From now till forever I'll keep dreamin' of You and the sunshine of love (the sunshine of love) Where there is sunshine, oh that's where you are Where there is laughter, then you can't be far Yes, you're in my dreams every night Mmm, how I long to a-hold a-you tight I'll follow you dear from here to a star Your lips are honey but sweeter by far Yes now until forever I'll keep dreamin' of You and the sunshine of love
