## Louis Tomlinson, Don't Let It Break Your Heart

on our way to 27 got a place on the other side of London doing better doing better

I know you left a part of you in New York under the bed in a box but you're doing better doing better

life gets hard and it's gets messed up when you gove so much but it's not enough when the hights too high and lows too low when you love someone and they let you go

don't you let it kill you even when it hurts like hell oh whatever tears you apart don't let it break your heart

times takes time to heal it you can't do it by yourself whotever tears you apart don't let it break your heart

it comes and it goes
we're driving down a one way road
to something better
what hurts you is gonna pass and
you'll have learnt from it when it comes back
you will
doing better
doing better

life gets hard and it's gets messed up when you gove so much but it's not enough when the hights too high and lows too low when you love someone and they let you go

don't you let it kill you even when it hurts like hell oh whatever tears you apart don't let it break your heart

times takes time to heal it you can't do it by yourself whotever tears you apart don't let it break your hear
