

# Louis Tomlinson, Out Of My System

Slowly

I never wanna go slowly

I only wanna go faster

Towards disaster every time

With me

I know you wanna come with me

Take anything you can carry

And leave everything else behind

I am only half of what

I think I can be

Gotta get it out of my system

Gotta get it off of my chest

I've lived a lot of my life already

But I've got to get through the rest

Demons

I'm taking all of my demons

And putting them where I won't see them

Cos I just want to feel alive

I am only half of what

I think I can be

Gotta get it out of my system

Gotta get it off of my chest

I've lived a lot of my life already

But I've got to get through the rest

Gotta get it out of my system, system

Gotta get it out of my system

Gotta get it out of my system

Gotta get it out of my head

I've lived a lot of my life already

But I've got to get through the rest

Gotta get it out of my system, system

Gotta get it out of my system

Gotta get it out of my system, system

Gotta get it out of my system
