

Louis XIV, Hopesick

I need sleep
I need love
I need fun
I need girls
I need sun
I need hope
I need help
I need dope
I need her
I need it
I can't run
I can't sit
I got pain, I got pain, I got pain

Hope sick
Hope sick
Hope sick
Hope sick

A heart flutter
And I shutter
A hand shake
A heart break
I love her
She loves me
But in my mind
But only in my mind

Hope sick
(If it was so hard to hope)
Hope sick
(How come I can't let you go?)
Hope sick
Hope sick

I need wheels
I need touch
On my toes
On my heels
On my lips
On my head
On the street
I need stuff
I need a heart
I need a break
My skin aches
What does it take
I need me, I need me

It's like I'm hanging from a rope
From a string
From a needle
From a thread
In my head

(Hope hope hope hope)

Hope sick
(If it was so hard to hope)
(How come I can't let you go?)
Hope sick
(Hope sick)

(If it was so hard to hope)

(How come I can't let you go?)

(If it was so hard to hope)
(How come I can't let you go?)

A heart flutter
I shudder
A hand shake
A heart break

Hope sick
Hope sick
Hope sick
Hope sick

It's like I'm hanging
(Hope sick, hope sick)
From a rope
(Hope sick, hope sick)
From a string

(Hope sick, hope sick, hope sick)
