Louis XIV, Hopesick

I need sleep I need love

I need fun

I need girls

I need sun

I need hope

I need help

I need dope

I need her

I need it

I can't run

I can't sit

I got pain, I got pain, I got pain

Hope sick

Hope sick

Hope sick

Hope sick

A heart flutter

And I shutter

A hand shake

A heart break

I love her

She loves me

But in my mind

But only in my mind

Hope sick

(If it was so hard to hope)

Hope sick

(How come I can't let you go?)

Hope sick

Hope sick

I need wheels

I need touch

On my toes

On my heels

On my lips

On my head

On the street

I need stuff

I need a heart

I need a break

My skin aches

What does it take

I need me, I need me

It's like I'm hanging from a rope

From a string

From a needle

From a thread

In my head

(Hope hope hope hope)

Hope sick

(If it was so hard to hope)

(How come I can't let you go?)

Hope sick

(Hope sick)

(If it was so hard to hope)

(How come I can't let you go?)

(If it was so hard to hope) (How come I can't let you go?)

A heart flutter I shudder A hand shake A heart break

Hope sick Hope sick Hope sick

It's like I'm hanging (Hope sick, hope sick) From a rope (Hope sick, hope sick) From a string

(Hope sick, hope sick, hope sick)
