

Louise, All That Matters

All That Matters

In the dark, in the dark of night
I am wide, I am wide awake
Thinking about all the things we said
Anger, Hey, Hey

How you looked when you slammed the
door

How I felt when you walked away
And I give everything I have
If you stay, you stay

It hurts deeper than you know
I can't go on like this

chorus

Don't care who's wrong or right
Don't care too much for pride
The love between us is all that matters

Won't you come back to me
We'll work it out somehow
Oh, can't you see that it's all that matters

In the tears of so many years
When I think of the time we spent
And I can't seem to stop the tears
From falling, falling

If I could I would turn back time
If I could I could at least stop pain
There is only so much the heart could take
From breaking, breaking

It hurts more than you could know
I can't go on like this

Repeat chorus

I miss the feeling of lying in your arms
(Lying in your arms)
I miss your reach every moment
(That we're apart)
(We're apart)
(We're apart)
(Yeah, yeah)

Repeat chorus to fade
