Louise, Arms Around The World

(All around the world)

All around the world
My love will always be the same
New York or Tokyo
Rome, Paris, Eqypt or Spain
Wherever I am I will always think of you
No matter, baby
My love will always
Get to you, yeah

When I think of you My love can fly

Chorus
You and I
Gonna wrap our loving arms
All around the world
Gonna capture all the love in the universe
Gonna make it shine
And wrap our arms around the world

(You and I)
I swim the ocean
To be with you every night
I cross the desert
And bring to you the Sahara light
(oh oh, yeah yeah)
Wherever I am
I will always come back to you
As long as you're there for me, baby
I'll find you, yeah

When I think of you My love can fly

Chorus

Oh oh, yeah Around the world And wrap our arms around the world, the world

I never thought that I Could find someone I never thought that I Could reach the sun I never thought that I Could feel your love All around the world

Chorus repeat to fade
