

Louise, Naked

I lie awake, hesitate, between love and hate,
I know you've been feeling my infatuation.
I can see, you and me, doing things we shouldn't be,
I can't seem to stop my imagination

(chorus)
I can feel your eyes all over my body,
I can read the signs are sexual
I can read your mind and I can see you want me,
Something in your eyes so sensual.

You make me feel naked...
undressing me with your eyes
You make me feel naked....
oh and hypnotised

I feel naked, naked

In between you and me, there is sensuality,
I can feel your eyes I can feel the tension
Hurling me to the ground, turning me, upside down
I could lose myself without redemption.

(Chorus)

I feel your lips, your finger tips,
Get inside, play with my mind,
I feel myself, begin to melt,
Just look at me, don't stop!!!

(Chorus to fade)
