

# Louise, One Kiss From Heaven

Only you can release me  
Only you can release me  
One kiss from heaven  
Only you can release me  
Oh oh oh oh  
One kiss from heaven  
Only you can release me  
Oh oh oh oh

Been a perfect night  
Baby turn the lights down low  
We've done enough talking  
I just wanna hold you close  
Your body's saying yes  
Even if your mind don't know

So baby just relax  
And let the feelings take control  
The place is here, the time is right  
I just wanna make you mine tonight  
If you only knew how you take my breath away

One kiss from heaven  
One kiss I'm melting baby  
One touch I'm going crazy  
You got me walking on thin ice  
One kiss from heaven  
Sweet love we're making baby  
So close to breaking baby  
One kiss away from paradise

The intensity is too much for me

Come and lay beside me  
There's no need to be afraid  
Whatever's on your mind baby  
I can melt away

No one's gonna find us  
Nothing's standing in our way  
Just you and me is all we need  
Show me a little faith

Time is on our side  
Baby can't you see the signs?  
If we don't take this chance  
It may never come again

One kiss from heaven  
One kiss I'm melting baby  
One touch I'm going crazy  
You got me walking on thin ice (Walking on thin ice)  
One kiss from heaven  
Sweet love we're making baby  
So close to breaking baby  
One kiss away from paradise (Paradise)

Only you can release me  
Only you can set me free  
(Release, release)  
Only you can release me  
(Come on)  
Make my dreams reality

One kiss from heaven  
One kiss I'm melting baby  
One touch I'm going crazy  
You got me walking on thin ice  
One kiss from heaven  
Sweet love we're making baby (Sweet love we're making)  
So close to breaking baby  
One kiss away from paradise

One kiss from heaven  
One kiss I'm melting baby  
One touch I'm going crazy  
You got me walking on thin ice  
One kiss from heaven  
Sweet love we're making baby  
So close to breaking baby  
One kiss away from paradise
