

# Louise, Super Magic

I didn't see you coming  
Like all the best tricks  
I didn't see you coming  
Like super magic

I made my bed this morning  
We forgot to sleep in it  
Stepped on your clothes all on the floor  
And now I'm feeling it

So unexpected was  
The mood you got me in  
My eyes were closed  
Now they're open

I didn't see you coming  
Like all the best tricks  
I didn't see you coming  
Like super magic

Let me take you back to my place  
We can party 'til quarter to six  
You know you really got me feeling super magic  
Like all the best tricks

We watched the sunrise  
How did we get so high?  
I'm gonna savour every minute  
Never forget why

So unexpected was  
The mood you got me in  
My eyes were closed  
Now they're open
