

# Love And Death, The Abandoning

Wake up sleepy  
Wide awake!

I am the walking dead  
I am death's best friend  
I create disaster  
I'm the master killing me  
There's no innocence  
There's only pain I'm empty

Master master save me  
Master master kill me  
Don't give up on me now  
'Cause that's what I've already done  
My body's breaking down  
I feel my mind getting numb

Why do I hurt myself?  
Why can't I escape this hell?  
I am always blaming  
Always chasing broken dreams  
I keep screaming out but no one ever hears me

Master master save me  
Master master kill me  
Don't give up on me now  
'Cause that's what I've already done  
My body's breaking down  
I feel my mind getting numb  
Bleeding from my disconnection  
Lost inside myself  
Forsaken by my own reflection  
Abandoning myself

I'm wide awake!  
(On myself)  
I'm wide awake!  
Give up give up  
(On myself)  
Give up give up  
I'm wide awake  
Save me!

Master master save me  
Master master kill me  
Don't give up on me now  
'Cause that's what I've already done  
My body's breaking down  
I feel my mind getting numb  
Bleeding from my disconnection  
Lost inside myself  
Forsaken by my own reflection  
Abandoning myself

No!  
I'm wide awake!
