

# Love Like Blood, Cry Out

Tear me - And leave me dying  
I feel your anger burn  
I take revenge for crying  
I know the tide will turn

Hate me - But you're a nothing  
I know you doubt and frown  
I see your dommsday coming  
I prey your fate comes down

[pre-chorus]  
Going down, coming down, going down

[chorus (x2)]  
Cry out a brag in every word  
Cry out your brag will be unheard  
Cry out your word will be absurd  
Cry out now

Watch me - will you remember you were a love of mine  
You know your kind is dying you are the last devine  
Hear me - and hear my warning you wear a thorny crown  
You feel an age declining you see your fate come down

[repeat pre-chorus / chorus / solo / chorus]
