Love, Live And Let Live

```
Verse 1:
     Oh, the snot has caked against my pants
     It has turned into crystal
     There's a bluebird sitting on a branch
    I quess I'll take my pistol
    I've got it in my hand
     Because he's on my land
Chorus:
    And so the story ended
     Do you know it oh so well
    Well should you need I'll tell you
     The end-end-end-end-end-end-end
    And...
Verse 2:
 Yes I've seen you sitting on the couch
    I recognize your artillery
     I have seen you many times before
    Once when I was an Indian
    And I was on my land
    Why can't you understand
Bridge 1:
       Served my time
     Served it well
     You made my soul
Bridge 2:
 Write the rules
     In the sky
     But ask your leaders
             Why
    Why
[repeat verse 1]
[repeat chorus]
[repeat bridge 1]
