

Love, No Matter What You Do

Do you remember me
I'm the one you talk about
Do you remember me
I'm the one you booted out

*

No matter what in the world you do
Hey, I'll always be in love with you
No matter what in the world you say
Girl, I'm gonna love you anyway
Do you remember when
You said that I was your true love
And you'd take care of me
And watch me like the stars above

(* Repeat)

I just gotta hear you play it one time for everybody now

(* Repeat)

I just gotta hear you play it one time for the world now.

(* Repeat)

I said I'm gonna love you anyway
You know I'm gonna love you anyway.
